Did you know that listening to music while working out can enhance your performance by at least 20%? Denon has developed the ultimate wireless fitness headphones that are your perfect training companion. Sweat proof, featuring stereo Bluetooth 3.0 wireless connectivity, and an integrated amplifier professional tuned to energise your workout, Denon's Exercise Freak AH-W150 In-Ear headphones also feature a rechargeable battery which lasts up to 7 hours for extensively long workouts. Integrated controls and microphones allow for wireless control and communication, so you can keep the music going without getting in the way of your workout.

## SOUNDS LIKE YOU

**Your “Power Song” will push you to excel, thanks to professional tuning and an integrated amplifier.**

We know that the right song can be more motivating than a personal trainer. Hear it on a pair of Denon Exercise Freak headphones and you just may put the personal trainer out of business. Exercise Freak headphones feature an integrated amplifier and are professionally tuned to provide heart-pounding bass to energise your workouts, no matter what your power song is. These headphones also feature a rechargeable battery that lasts up to 7 hours (charging cable included).

## FITS LIKE YOU

**Feel the music. Not your headphones.**

Real music aficionados get so immersed in their music that it's easy to spend hours enjoying your favourite tunes in pristine quality. At Denon we believe you should feel the music, not your headphones. In a quest to provide the most comfortable, best fitting headphones, Denon's engineers have studied over 4,000 pairs of ears from people around the world to come up with a design that automatically accounts for the subtle differences in ear shape, placement, canal size, head size and jaw depression. We know that fit and comfort comes from paying attention to the small details. Denon's Exercise Freak In-Ear headphones come with a multitude of antimicrobial Silicon ear tips (S, M, L) to choose from you can get the right custom fit. A mesh carrying case with a karabiner is also included so you can store your headphones right on your gym bag when not in use.

**Secure fit, sweat proof design allows you to focus on your workout.**

We are so passionate about making the best-in-class fitness headphones that we tested several design prototypes on fitness gurus as they ran, walked, lifted weights, and even did yoga, so we could get the right design. Denon's Exercise Freak AH-W150 In-Ear Headphones feature a flexible neckband and articulating in-ear design to fit you perfectly.

## MOVES LIKE YOU

**Unleash your maximum performance with Wireless Bluetooth 3.0 Connectivity.**

Denon's Exercise Freak AH-W150 In-Ear headphones feature Bluetooth 3.0 Connectivity. No more worrying about getting a cable caught in gym equipment, no need to tape wires down on your body or run with wires underneath your shirt. With a range of up to 25 feet, you can even set your smartphone down on a treadmill or gym floor when you're lifting weights. Denon's Exercise Freak headphones provide a fitness music experience so liberating that you may forget where your phone is in the gym (we do recommend you keep an eye on that).

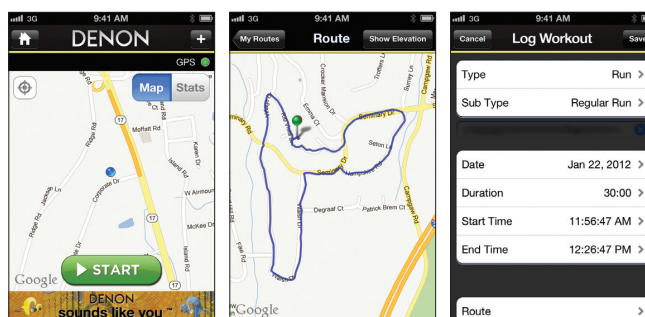

**Take back control...with Denon's integrated controls and microphone.**

Your fitness routine is the one time of the day that you get the chance to think, to reflect, and focus on yourself. Denon's integrated controls allow you to adjust the volume, play/pause the music and even choose to answer that phone call...or ignore it. Denon's innovative air cushion on the inside of the ear piece cushions your head as you press the controls and provides for additional ventilation.

## DENON SPORT APP

Denon Sport App, available for iPhone, iPad, or Android phones enhances the listening experience during your workouts by providing:

- Real Time GPS tracking of outdoor activities for automatic route mapping & pace tracking
- Voice prompts give you encouragement & support on long outdoor runs / walks with audible pace tracking at the mile or kilometer marks
- Integrated workout journal so you can keep track of your fitness goals
- Integrated nutrition journal so you can keep track of your calories & nutrition
- Built-in music player
