

SL180 LIFEJACKET

Smart and Serious !

NEW

SL
180

Comfortable and ergonomic design, innovating flexible materials, no doubt : the new SL 180 is definitely tailored for performance !

Designed with the cooperation of François Gabart, skipper of Trimaran MACIF, validated by several Figaro racers, it is already selected by numerous racers in the Transat Jacques Vabre.

MADE BY
PLASTIMO

Tailored for perfect body fit in all manoeuvres

All models include harness, automatic or hydrostatic release

Y-shape dual crutch strap

Comfortable, ergonomic, easy to don and adjust, It feels like a garment... you just forget you are wearing it !

LIGHTWEIGHT AND COMFORTABLE, 180 N BUOYANCY

Hi-tensile fibre harness : soft loops in Dyneema® and webbing in polyester, combining reliability and resistance (ISO 12401), with lightweight and contact-friendly construction

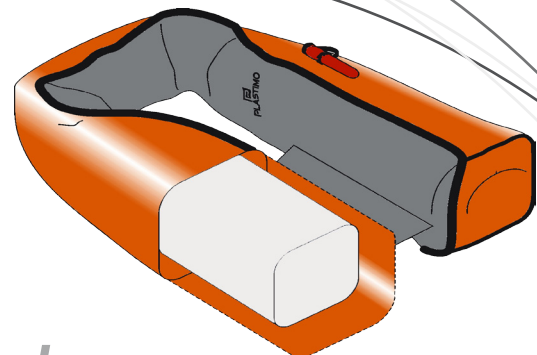

Mesh neckline with ergonomic design flexes around your shoulders

Strap adjustment for better fit in height

Foam padded patch for added comfort

Zipped pocket for safety equipment

Lifejacket approved as 150 N category with 180 N actual buoyancy. The combination of optimal flexibility, lightweight and performance is obtained thanks to the polyurethane film air chamber technology, invented by Plastimo and engineered in its liferafts for decades.

PLASTIMO
happy boating to you !
