

PRODUCT REVIEW

Product Name: Bronya Anticondensate

Manufacturer: LLC NPO BRONYA

Bronya Anticondensate is Thermal Insulating Coating which can be applied directly onto a wet/condensed surface and stop the condensation of the surface.

Using Bronya Anticondensate, we can solve the problem of surface condensation on object such as pipe chiller, gas transmitting pipe and other object which operation process cannot be stopped to insulate.

Bronya Anticondensate can solve the problem of surface condensation successfully.
